

## NEWS RELEASE

FOR IMMEDIATE RELEASE – September 1, 2009

### **School District 6 and 8 CELEBRATE 365 days a year!**

The 'Celebrate what's RIGHT with the world' committee of School Districts 6 and 8 is very excited to be launching the 'Celebrate What's Right with the World' 2009-2010 calendar.

The 16 month wall calendar was created using responses received during the 'EYE SPY What's RIGHT with the World' event held in May of 2009 in both School District 6 and 8. With over 12,000 entries submitted during the week, the districts wanted to share all the positive comments with the Greater Saint John community; what better way than through a calendar! Each district has a calendar specific to their district that includes submissions from students, staff and community members along with pictures of students 'celebrating' what's right with the world!

The calendars will be distributed to all schools in the districts and will be available for community groups, businesses and organizations to also receive as a token of thanks to the community for CELEBRATING . The 24" x 36" colourful calendar would make a great addition to any office, arena, or community room.

If you would like to receive a calendar please contact Joan Wilkins, Celebrate Coordinator, School District 8 at [joan.wilkins@gnb.ca](mailto:joan.wilkins@gnb.ca) 643-6884 or Kent Staal [kent.staal@gnb.ca](mailto:kent.staal@gnb.ca) , 848-6687.

---

**School District 6** is one of nine Anglophone school districts for the province of New Brunswick. There are over 10,000 students enrolled in the district and over 693 full time equivalent educators in twenty-four schools.

**The Mission of School District 6 is ensuring student success.**

**School District 8** encompasses the City of Saint John and rural communities from Browns Flat and Grand Bay-Westfield to Fundy Shores to St. Martins. There are over 12,000 students enrolled in the district in 35 schools. **The Mission of School District 8 is to provide, responsibly and cooperatively, all students with the opportunity for learning, to a measurable standard, through quality instruction in a safe environment.**
