
TEENS WHO CARE AWARDS...11 YOUTH HONOURED!

The 2nd annual 'Teens Who Care Awards', hosted by The Resource Centre for Youth were held on the evening on April 29th where youth were recognized for "Being the Best for the World". Eleven teens from the greater Saint John area, along with their special guests, attended a gala event held at the Brunswick Delta where they received recognition for their leadership and volunteerism.

The event honoured 11 teens who have devoted their valuable time to make our community a better place by their volunteer effort and who have a special commitment to solve social problems. This year's event included a taped video message from the individual who nominated the teen – a great personal touch to hear why they nominated the teen; to hear what these youth have accomplished at such a young age was quite amazing!

Congratulations to the 2010 recipients of the Teens Who Care Awards!
